Objective

Product & UI/UX Designer with 3+ years of experience crafting intuitive, user-centric digital products. Leveraging a unique multidisciplinary background, combining structural engineering principles with front-end development expertise to bridge the gap between aesthetic design and technical feasibility. Passionate about driving end-to-end design processes, building scalable design systems, and delivering seamless user experiences.

Work Experience

Product Designer | 3arabawy

Dec 2024 – Present

- Designed the core mobile app and responsive website from scratch, handling the full UX/UI lifecycle.
- Built and maintained a complete Design System to ensure consistent visual branding and faster developer handoffs.
- Contributed to product strategy by designing ad spots, store interfaces, and billing frameworks to drive business monetization.
- Created comprehensive dashboards to track critical user metrics (reach, views, calls, and messages).

Freelance UI/UX Designer

Mar 2023 – Present

- Delivered user-centric mobile and web designs for diverse clients, including "Sub Grid," a specialized subscription tracking mobile app.
- Accelerated development workflows by establishing design-to-code pipelines using Figma MCP and Open Code to deploy directly to Vercel.
